Holden Snapshots

Images from the golden years

DON LOFFLER

Jacketed HB 288 PP 230 x 210 FULL COL T/OUT ISBN 9781743053867 \$49.95

Don Loffler has surprised himself, and probably many of his faithful readers, by writing this sequel to his fifth book, *Holden Days*, before completing the promised book on rare and unusual examples of the first ten Holden models. When *Holden Days* was released, he had no idea he would receive many new images from readers generally and, in particular, from the relatives and friends of those whose images appear in the book. In addition, Don kept locating new images through his own research.

Holden Snapshots is the stunning result, a history of Holden in many new and never-before-seen images.

Holden Days

From the original 48-215 'FX' to the 1966 HR

DON LOFFLER

HB 288 PP 210 x 230 FULL COL T/OUT ISBN 9781743051133 \$49.95

'Don Loffler has now written five outstanding books on Australia's Own Holden. Unlike many motoring enthusiasts, Loffler's interest in the cars comprises a deeper interest in Australian social and cultural history. For the first time, he looks at models made between 1956 and 1967 and explains why photos of the early cars still predominate. If *Holden Days* was all in pictures with brief captions, it would still be a book to cherish, but Don Loffler uses individual memories to create a rich social history of Australia from 1948 right through until now as Holden owners relive their stories.' – John M. Wright (PhD)

Wizard of Oz

Speed, modernism and the last ride of Wizard Smith

CLINTON WALKER

PB 312 PP 235 x 155 GREYSCALE ILLUS T/OUT 32 PP COL ISBN 9781862549500 \$34.95

In the bitter autumn of 1932, as the world crashed into the Great Depression, Australian motor ace Norman 'Wizard' Smith sat on the remote Ninety Mile Beach in far north New Zealand, waiting for the wind to change; waiting for a chance to drive his streamlined super car the Enterprise to a new world speed record. He would be the fastest man on earth – a golden god! He waited and waited ...

Norman Smith was an enigma. A contemporary of Bradman, Kingsford Smith and Phar Lap, he was dumpy and shy. But when he got behind the wheel he became the Wizard, his command uncanny, the speeds breathless. In league with engineer Don Harkness, who designed and built the Enterprise, he was pointing Australia toward a brighter future. Until somewhere along the line, things started going wrong. This book lays bare the tragic fall from grace of Norman 'Wizard' Smith – an ordinary man lost to an extraordinary quest, and, until now, a forgotten figure.
